

I am an avid listener to KLOVE, each day I listen for about 3 hours and could not imagine my life without it. If KLOVE were to be taken off the air where I live, I think that my community would be in an uproar. The music and uplifting words that encourage me each day comes from KLOVE, no other station does that for me. It is in the family interest that you keep them active as many will be more than dissapointed in the FCC for this action. So listen to the people who it matters most to.
